

Air1 has a huge positive impact on all the communities where it can be heard! In the times we live in we need to be able to receive as many messages of hope, faith, and love that we can get. Air1 provides people with these messages, and if it were to be displaced by an LPFM broadcaster, we wouldn't have anything else like it to take its place, because it's the only station providing that style of music. It's absolutely necessary to enable Air1 to stay on the air, because it's sole focus is to spread a message that's in the best interest of the public. Thank you.
